Re: National Achievement Track Applications For Six Wood Preserving Facilities,
Kerr-McGee Chemical LLC, Forest Products Division

Dear Reviewer:

Kerr-McGee Chemical LLC, Forest Products Division is pleased to submit six individual applications for EPA's Achievement Track for our creosote wood preserving facilities. Each of these facilities has achieved ISO 9002 and 14001 certification by a third party registrar. Each of these facility subscribes to the American Chemical Council's Responsible Care Program®. All have achieved OSHA STAR status.

Pollution prevention activities instituted by these facilities are not new programs. This is demonstrated by the progress that each facility has made as outlined in the summary tab of the application. We have been pursuing pollution prevention for well over a decade and our results demonstrate our commitment.

Of special note is our progress in reducing the quantity of hazardous waste. Although we have not always demonstrated progress from year to year, the trend is definitely toward less hazardous waste generated per unit of production. We have re-dedicated ourselves to reduce the quantity of hazardous waste generated by 75% in the next three years.

Should you or any member of the review team have any questions, please telephone me at (405) 270- 2394 or email me at nbock@kmg.com.

Sincerely,

KERR-McGEE CHEMICAL LLC
FOREST PRODUCTS DIVISION
